Dear Parents/Caregiver,

We are looking for your **expression of interest** to participate in the sleepout on the 1st – 2nd of April. The main element will be dads and kids constructing something out of cardboard to sleep in together. Friends from school and other dads will be present, but the primary goal and expectation is that dad’s and kids would spend time together. Therefore, each child would be expected to sleep in the same structure as their dad or father figure. ‘The Dads group’ team will oversee and coordinate the event, with the expectation that dads would take primary responsibility for their child/children.

If you would like to participate, could you please return this note to the school by **Monday the 20th** of Feb. At this point we will assess the viability of the event before going ahead
